Attn: Evan Pratt, P.E.

Re: ADS Arbor Hills Landfill, Inc.

Dear Mr. Pratt,

The Arbor Hills Landfill has undergone numerous upgrades and expansions over the years. Advanced Disposal Services (ADS) has acquired the Arbor Hills Landfill in November 2013. Arbor Hills Landfill has an agreement with Washtenaw County, dated June 4, 1992 to provide solid waste capacity to the county. Per this agreement and an agreement with Salem Township, the landfill also pays a host fee to both entities based on incoming waste.

In the summer of 2015, ADS will finish constructing Cell 4. This landfill cell is the second to last permitted cell and is expected at the current permitted volumes, to be filled within the next 10-12 years.

Therefore, ADS Arbor Hills Landfill, Inc. is respectfully requesting to modify the current Washtenaw County Solid Waste Plan (Plan) to add additional acreage for a potential expansion of the landfill. The goal is to get approval from Washtenaw County for the additional acreage in the Plan which would allow for the submission of a construction permit to the State of Michigan.

ADS looks forward to discussing the Plan with you and your staff. Please contact me to discuss how to proceed with the modification to the Plan. I may be reached at (248) 755 9306 or at dave.rettell@advanceddisposal.com.

Sincerely,

ADS Arbor Hills Landfill, Inc.

David M. Rettell
